Played university's level tournaments mostly in cricket

PERSONAL PROJECTS

Instagram Clone

- Technology used : React JS, Node JS, Mongo DB, JQuery, Material UI (for icons) and npm packages.
- The main purpose of this project to develop my MERN stack knowledge. In this people can create account and use to share their photo and get like, comment on their post. Also customize their profile by their requirement something like real Instagram.
- [Click for live demo](#)

Realtime Chat App

- Used React JS for front-end and for server Node JS. For real-time chat communication used Socket.IO
- People can make room and by using room code they can create group chat and communicate with each other. If anyone want a group chat then everyone have to join with same room code.
- [Click for live demo](#)

Sudoku

- In this there are three mode of game easy, medium, hard where people need to solve the puzzle.
- Technology used : HTML, CSS, Javascript.
- [Click for live Demo](#)
